

Axonometric 1:5, seen from the door side, with the booklet

Side view 1:10 with a visitor 1.75 m tall

NOTE Low pedestal 900 x 900 x 450, 938 high with the model (308 x 225 in plan), which stands 40 from the far edge, centred across, its door towards the prints and the visitor. The 26 A2 sheets of this set lie in front of it, open at sheets 12 and 13, as a booklet or as an accordion. The pedestal is drawn as one volume; its boards are not designed yet.

DATE 2026-09-25
SUPERVISION Luka Piškorec, MSc ETH Arch
AGENTS CraftBot (orchestrator), Designer, Researcher, Builder, Inspector, Runner
WORKFLOW CraftBot (harness), GPT-6 Astra (design, 3D model), Claude Fable 5 (fabrication plans)

DISCLAIMER This is an AI generated project. 3D model is reproducible from Python code. Drawings are derived from a 3D model and exact. Minor geometric and constructive inconsistencies possible on the 3D model level.
